

# œUF™ crib

The Oeuf Crib was designed by parents of two who understand the importance of safety and who have an appreciation for modern design.

Like European cribs, Oeuf uses fixed side rails and a lower center of gravity to offer one of the sturdiest and safest cribs available.

crib shown with optional changing station

## GOOD DESIGN IS FOR ALL AGES™

FEATURES	BENEFITS
<b>Smart design</b>	Meets or exceeds all US and Canadian safety standards Easy to assemble by one person (approx. 30-40 minutes) A simple and beautiful focal point to your nursery Easily converts to toddler bed with conversion kit (sold separately)
